

The Part Number:

3-25SHB1014

PRODUCT NAME: Filter Housing

RAW MATERIAL:
Opaque - Polypropylene
Clear - Styrene Acrylonitrile (SAN)
Cap - Reinforced Polypropylene

DIMENSION:
Standard Size: 2.5 in x 5 in, 10 in, 20 in
Jumbo Size: 4.5 in x 10 in, 20 in

FEATURES & BENEFITS:

- Equipped with a black, reinforced polypropylene cap
- Optional pressure relief/bleed button on inlet side of cap
- Leak-proof seal
- Available with clear or opaque sumps
- Opaque housings offer outstanding chemical compatibility

APPLICATIONS:

- Under-sink and counter top residential filtration
- Pre and post reverse osmosis filtration
- Recreational vehicle filtration
- Food service filtration
- Humidifying systems

| Technical Data | |
|--|------------------|
| Max Operating Temperature (°C) | 70 |
| Max Operating Pressure | 8 Bars (115 PSI) |
| Recommended Average Operating Pressure | <6 Bar (88 PSI) |
| Max Temperature | 50 °C |
| Brass Insets | Size >1/2 in |
| Pressure Release Button | Available |
