

The Part Number:

6-201005EF14-MB

PRODUCT NAME: Sediment Inline Filter

RAW MATERIAL: PP Melt Blown Spun

- FEATURES & BENEFITS:**
- Encased in a plastic body
 - Good for environments where taking out the filter and replacing it in a housing is not ideal, such as a dusty manufacturing environment
 - No need to touch filter media
 - Features quick connect connections that allow for quick and easy changing

Technical Data	
Model	T33-1
Size	2 inch diameter x 10 inch length
Port	1/4 in QC
Micron	5,10
Material	PP Melt Blown Spun
Max Water Flow Rate	0.85 GPM
Service Life	1500 GAL
Maximum Temperature	52 °C
Maximum Working Pressure	125 PSI
