

PRODUCT NAME: Media Filter

CONTROL SYSTEM:

The control system consists of a DC flushing controller, a built-in differential pressure switch, and solenoid valves. The differential pressure switch is pre-adjusted.

Optional: AC flushing controller using standard switching adapter

(Input: 100/240; 50/60 Hz; Output: 12V DC)

MATERIALS:

- **Filter housing:** Carbon steel, electrostatic powder coating
Optional -- Stainless Steel
- **Gaskets:** SBR (Synthetic Rubber)
Optional -- Other Materials
- **Diffusers:** Plastic

WEIGHT:

	lbs	kg
Single 48 inch tank pallet	990	450
Double 48 inch tank pallet	2050	930
Single 36 inch tank pallet	570	260
Double 36 inch tank pallet	1240	560

Notes: the weight includes pallet, filters, manifolds, flush valves
(dows not include media)

GENERAL DATA:

Min Working Pressure	2 bar	29 psi
Max Working Pressure	8 bar	120 psi

MEDIA PER FILTER:

Filter Size	lbs	kg
36 inch	950	431
48 inch	1650	703
